

CAPABILITY STATEMENT 2026

Data and cloud, proven in the mission.

LaTronic Solutions modernizes how federal agencies manage, move, and use their data. We build enterprise data platforms, migrate mission systems to secure cloud, and automate the manual work that slows decisions.

Proven Performance

CHALLENGE → SOLUTION → IMPACT

EOMS II

Department of State
SUBCONTRACTOR

Data.State enterprise analytics
platform

Data & Analytics · Cloud · AI/ML

- **CHALLENGE:** Hundreds of manual data collection, integration, and analysis activities across bureaus and missions, with no shared, governed platform for analytics or AI.
- **SOLUTION:** Designed and implemented Data.State and the Department-wide Technology as a Service (TaaS) platform: automated pipelines plus on-demand, governed access to Azure Data Factory, Databricks, Palantir Foundry, Azure OpenAI, and Tableau.
- **IMPACT:** 50+ services delivered to 70,000 global users, integrating 5,000+ data sources across multiple cloud environments and security levels.

SCALE

Department of State
SUBCONTRACTOR

AI-driven data extraction on a
secure container platform

AI/ML · Cloud · Data Engineering

- **CHALLENGE:** Critical information in cables, emails, images, and audio required slow, error-prone manual extraction.
- **SOLUTION:** Built a Kubernetes container platform on government cloud and Azure AI pipelines (OCR, speech-to-text, NLP), with Azure Data Factory ETL feeding Power BI.
- **IMPACT:** Reduced manual labor and improved data accuracy, turning unstructured content into actionable intelligence.

Project Rabbit

Defense Logistics Agency
SUBCONTRACTOR

Secure cloud portal for employee
verification for visa applicants

Cloud · Applications · DevSecOps

- **CHALLENGE:** Employee verification for visa applicants required a secure, always-available, DoD-compliant portal.
- **SOLUTION:** Delivered a serverless Python application on AWS Lambda with CI/CD through Azure DevOps and GitHub, two-week sprints, and DISA STIG compliance.
- **IMPACT:** Continuous availability for a mission-critical humanitarian process, with regular audits against evolving DoD and DLA cybersecurity standards.

USACE Power Platform

U.S. Army Corps of Engineers
PRIME CONTRACT — TUBA GROUP

Workflow automation and
decision analytics

Automation · Data Visualization · Data
Management

- **CHALLENGE:** Manual, spreadsheet-driven processes and scattered data slowed reporting and decision-making.
- **SOLUTION:** Migrated and consolidated historical data into governed SharePoint data structures, automated workflows with Power Automate and Power Apps, and built Power BI dashboards to replace manual tracking.
- **IMPACT:** 5 years of historical data migrated and consolidated, 100+ workflow automations, and 1,000+ SharePoint data objects, modernizing spreadsheet-driven tracking.

CONTRACTING PROFILE
